

## ERRATUM: THE SYNONYMY OF *C. DOESBURGI* DE CARLO WITH *C. MONTEI* DE CARLO (HETEROPTERA: NEPIDAE)

STEVEN L. KEFFER

Department of Biology, James Madison University, Harrisonburg, VA 22807

---

Dr. Arnold Menke, retired NMNH curator, has pointed out an error in priority in my "Systematics of the New World waterscorpion genus *Curicta* Stål (Heteroptera: Nepidae)." On page 191, I synonymized *C. montei*, described by De Carlo in 1960, with *C. doesburgi*, also described by De Carlo but in 1967. Clearly, *C. montei* has priority. Therefore, I take this opportunity to correct this error.

*Curicta montei* De Carlo, 1960, Actas Trab. Congr. sud-am. Zool 3(4):48-49.

*Curicta doesburgi* De Carlo, 1967, Rev. Soc. Ent. Arg. 29(1-4):33. (1966).

### NEW SYNONYMY.

*Curicta doesburgi*, Nieser, 1975, Studies Fauna Suriname and Guyanas 16(81): 131-132.
